Computer Networks Lab (CSP-284)

Sr. No	Name of the Experiment	Conduct(12)	Record(10)	Viva(8)	Teacher Remarks
1.	Familiarization with Computer Hardware				
2.	Installation Process of various operating systems				
3.	Study of LAN (Its Installation, Components and Topologies)				
4.	Preparing straight and cross cables				
5.	Familiarization with transmission media viz. coaxial cable, twisted pairs, optical fibre networking, wireless networking, connectors etc.				
6.	Creation of different topologies				
7.	Sharing of resources with two connected nodes				
8.	Configuration of TCP/IP Protocols.				
9.	Network troubleshooting
